## Description:

- “ABC Travel Agency” software is a desktop application for a travel management system.
- After opening the app, the **Home page** will be shown, which is prototype (1). After clicking **Login** Button, the Login page will open which is prototype (2).
- After filling valid username and password in related textboxes, the user can press **sign in** button which will open the homepage, designed as prototype (1). If the customer does not have an account, he/she can press **sign up** button which will take to sign up page, which belongs to prototype (11), and the bar **Home** will become selected.
- If the option in the sidebar named **Flight** is selected, the transportation page for viewing and selecting flights will be shown, which is designed as prototype (3).
- If the option in the sidebar named **Bus** is selected, the transportation page for viewing and selecting buses will be shown, which is designed as prototype (4).
- If the option in the sidebar named **Train** is selected, the transportation page for viewing and selecting train will be shown, which is designed as prototype (5).
- If the option in the sidebar named **Hotel** is selected, the page for viewing and selecting hotels will be shown, which is designed as prototype (6).
- Pressing the **Go** button beside every hotel name on the page of viewing and selecting hotels will lead to showing the page of details information of the specific hotel designed in prototype (7).
- If the option in the sidebar named **Activities** is selected, the page for viewing and selecting activities will be shown, which is designed as prototype (8).
- Selecting the option **Booking Info** in the sidebar will view the details of booking info page. This page is designed in prototype (9).
- Pressing the **profile** button which is available in prototype (1), (2), (3), (4), (5), (6), (7), (8), and (9) will lead to open the page of profile details, which designed in prototype (10).
- For admin login, an admin needs to login through the login page which is designed in prototype (1). An admin needs to fill the textboxes of username and password with valid information. Also, He/she needs to select the **sign in as admin** option. After pressing the **sign in** button, the **Homepage** of “manager view” where all kinds of information can be managed will open. This page is designed in prototype (12).

- Pressing the Go button beside “Manage Hotels” will lead to opening the **Manage Hotels** page. This page is designed in prototype (13).
- Pressing the Go button beside “manage Hotel Rooms” will lead to opening the **Manage Hotel Rooms** page. This page is designed in prototype (14).
- Pressing the Go button beside “Manage Flights” will lead to opening the **Manage Flights** page. This page is designed in prototype (15).
- Pressing the Go button beside “Manage Buses” will lead to opening the **Manage Buses** page. This page is designed in prototype (16).
- Pressing the Go button beside “Manage Trains” will lead to opening the **Manage Trains** page. This page is designed in prototype (17).
- Pressing the Go button beside “Manage Sign Up” will lead to opening the **Manage Sign Up** page. This page is designed in prototype (18).
- Pressing the **log out** button can be used to exit the desktop application.

### Exercise – 6: Project Test Planning

Project Name: ABC Travel Agency		Test Designed by: Shusmita Anjum Aziz		
Test Case ID: ABC_login101		Test Designed date: 28-03-2024		
Test Priority (Low, Medium, High): High		Test Executed by:		
Module Name: Login Session		Test Execution date:		
Test Title: verify login with valid username and password				
Description: Test application login page				
Precondition (If any): User must have valid username and password				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Go to the application 2. Enter username 3. Enter password 4. Click Sign in	Username: shusmita11  Password: @13475090i5	User should login into the application, username and password have been matched		
	Username: shusmita11  Password: @13475	User will not be able to login into the application because username and password did not match		
Post Condition: User is validated with database and successfully login to account. The account session details are logged in the database.				

Project Name: ABC Travel Agency		Test Designed by: Sha Mohammad Yeahia Idris		
Test Case ID: ABC_Signup101		Test Designed date: 28/3/2024		
Test Priority (Low, Medium, High): High		Test Executed by:		
Module Name: Sign up Session		Test Execution date:		
Test Title: Verify signup information				
Description: Test application Sign up page				
Precondition (If any):				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Go to the application 2. Go to Sign up page 3. Enter sign up information 4. Click Signup	Name: Idris Username: Idris98 Email: <a href="mailto:idris32@gmail.com">idris32@gmail.com</a> Number: 017***** Gender: Male Password: abc@12 C Password: abc@12 Address: Kuril, Dhaka.	User successfully create an account.		
	Name: Idris Username: Idris98 Email: <a href="mailto:idris32gmail.com">idris32gmail.com</a> Number: 017***** Gender: Male Password: abc@12 C Password: abc@1 Address: Kuril, Dhaka.	User will not be able to create account. Invalid email address. Password and confirm password are not match.		
Post Condition: User successfully create an new account. Sign up information are store in database.				

Project Name: ABC Travel Agency		Test Designed by: Md Yeasin Newaz		
Test Case ID: ABC_Update101		Test Designed date: 28/03/2024		
Test Priority (Low, Medium, High): Medium		Test Executed by:		
Module Name: Update Session		Test Execution date:		
Test Title: Access to a profile page displaying their personal information				
Description: Test application update page				
Precondition (If any): User must have login first				
Test Steps	Test Data	Expected Results	Actual Result	Status(Pass/Fail)
1. Log in 2. Go to profile 3. Edit profile details 4. Click Update Profile	Change Phone Number: 01864456324 Change Email:yeasin100@gmail.com Password: Abc@1264	User successfully updated information		
	Change Phone Number: 01864456aa Change Email:YEasin100gmail.com Password: Abc@1264	User will not able to updated the information because user inserted invalid phone number and email		
Post Condition: Change to the profile will update the database and user interface.				

Project Name: ABC Travel Agency		Test Designed by: Md. Riyadh Ullah		
Test Case ID: ABC_Logout101		Test Designed date: 04/04/2024		
Test Priority (Low, Medium, High): Low		Test Executed by:		
Module Name: Logout Session		Test Execution date:		
Test Title: Verify logout confirmation				
Description: Test application logout button				
Precondition (If any): User needs to login first				
Test Steps	Test Data	Expected Results	Actual Result	Status(Pass/Fail)
1. Log in 2. Click Logout button	Username: riyadh1  Password: @13475090i5	User successfully has been logged out.		
Post Condition: The account session details are logged out from the database. Change to user interface and the functionalities will be limited.				

Project Name: ABC Travel Agency		Test Designed by: Md. Minhajun Nabi Shiam		
Test Case ID: ABC_Homepage101		Test Designed date: 04/04/2024		
Test Priority (Low, Medium, High): High		Test Executed by:		
Module Name: Homepage Session		Test Execution date:		
Test Title: Verify navigation of Homepage				
Description: Test application Homepage				
Precondition (If any): User has the access to the homepage				
Test Steps	Test Data	Expected Results	Actual Result	Status(Pass/Fail)
1. Open application		Homepage appeared to the user		
Post Condition: User can navigate to the pages related to booking and can view information.				

Project Name: ABC Travel Agency		Test Designed by: Shusmita Anjum Aziz		
Test Case ID: ABC_Transportation101		Test Designed date: 04/04/2024		
Test Priority (Low, Medium, High): Medium		Test Executed by:		
Module Name: Search Session in Transportation Pages (Flight, Bus, Train)		Test Execution date:		
Test Title: verify search in transportation pages (Flight, Bus, Train)				
Description: Test application Transportation Pages (Flight, Bus, Train)				
Precondition (If any): User has the access to the homepage				
Test Steps	Test Data	Expected Results	Actual Result	Status(Pass/Fail)
1. Open application to view homepage 2. Select a specific transportation option through sidebar. 3. Select information available in combo box 4. Click search button	From: Dhaka To: Shylet Date: 04/04/2024	Show available transportation.		
	From: Dhaka To: Date: 04/04/2024	Show error message.		
Post Condition: Details of available transportations will be selected from the database and will be visible in user interface.				

Project Name: ABC Travel Agency		Test Designed by: Sha Mohammad Yeahia Idris		
Test Case ID: ABC_Hotel101		Test Designed date: 04/04/2024		
Test Priority (Low, Medium, High): Medium		Test Executed by:		
Module Name: Search Session in Hotel page		Test Execution date:		
Test Title: Verify Search in Hotel Page				
Description: Test application Hotel Page				
Precondition (If any): User has the access to the homepage				
Test Steps	Test Data	Expected Results	Actual Result	Status(Pass/Fail)
1. Open application to view homepage  2. Select hotel option through sidebar  3. Select information available in combo box  4. Click search button	Choose Destination: Cox’s Bazar Check In: 05/04/2024 Check Out: 08/04/2024	Show available hotels.		
	Choose Destination: Cox’s Bazar Check In: 05/04/2024 Check Out: 04/04/2024	Show error message.		
Post Condition: List of available hotel will be selected from the database and will be visible in user interface.				

Project Name: ABC Travel Agency		Test Designed by: Sha Mohammad Yeahia Idris		
Test Case ID: ABC_Hotel102		Test Designed date: 04/04/2024		
Test Priority (Low, Medium, High): Medium		Test Executed by:		
Module Name: View Details Session of Hotel		Test Execution date:		
Test Title: Verify Go button in Hotel page				
Description: Test application Hotel page				
Precondition (If any): User has the access to the homepage				
Test Steps	Test Data	Expected Results	Actual Result	Status(Pass/Fail)
1. Open application to view homepage 2. Select hotel option through sidebar 3. Select information available in combo box 4. Click Search button 5. Click Go button	Choose Destination: Cox’s Bazar Check In: 05/04/2024 Check Out: 08/04/2024	Show details of a hotel.		
Post Condition: Details of a available hotel will be selected from the database will be visible in user interface.				

Project Name: ABC Travel Agency		Test Designed by: Md Yeasin Newaz		
Test Case ID: ABC_Activites101		Test Designed date: 04/04/2024		
Test Priority (Low, Medium, High): Low		Test Executed by:		
Module Name: Activity Selecting Session		Test Execution date:		
Test Title: Verify activity selection				
Description: Test application Activity selection				
Precondition (If any): User has the access to the homepage				
Test Steps	Test Data	Expected Results	Actual Result	Status(Pass/Fail)
1. Open application to view Homepage 2. Select Activities option through Sidebar. 3. Select information available in combo box	Location: Cox’s Bazar Date: 05/04/2024 Category: Sports	Show available activites.		
Post Condition: Details of available activity will be selected from the database and will be visible in user interface.				

Project Name: ABC Travel Agency		Test Designed by: Md. Riyadh Ullah		
Test Case ID: ABC_BookNow101		Test Designed date: 04/04/2024		
Test Priority (Low, Medium, High): High		Test Executed by:		
Module Name: Book now Session		Test Execution date:		
Test Title: Verify booking in Transportation pages (flight, bus, train) and Hotel pages				
Description: Test application of Book Now button				
Precondition (If any): User needs to login first				
Test Steps	Test Data	Expected Results	Actual Result	Status(Pass/Fail)
1. Open application to view Homepage 2. Log in 3. Select a specific option through Sidebar. 4. Select information available in combo box 5. Click Search button 6. Click Book Now button	Choose Destination: Cox’s Bazar Check In: 05/04/2024 Check Out: 08/04/2024	Booking Info page appeared to the user		
Post Condition: Store booking information in database.				

Project Name: ABC Travel Agency		Test Designed by: Md. Minhajun Nabi Shiam		
Test Case ID: ABC_BookingInfo101		Test Designed date: 04/04/2024		
Test Priority (Low, Medium, High): High		Test Executed by:		
Module Name: View Booking Info Session		Test Execution date:		
Test Title: Verify accessibility of Booking Info page				
Description: Test application Booking Info page				
Precondition (If any): User needs to login first				
Test Steps	Test Data	Expected Results	Actual Result	Status(Pass/Fail)
1. Open application to view homepage 2. Log in 3. Select booking info option through sidebar		Booking details history will be showed.		
Post Condition: Extract booking information from database.				

Project Name: ABC Travel Agency		Test Designed by: Md. Riyadh Ullah		
Test Case ID: ABC_Wallet101		Test Designed date: 04/04/2024		
Test Priority (Low, Medium, High): High		Test Executed by:		
Module Name: View Wallet Session		Test Execution date:		
Test Title: Verify accessibility of Wallet				
Description: Test application of Wallet				
Precondition (If any): User needs to login first				
Test Steps	Test Data	Expected Results	Actual Result	Status(Pass/Fail)
1. Open application to view Homepage 2. Log in 3. Select a specific option through Sidebar. 4. Select information available in combo box 5. Click Search button 6. Click Book Now button 7. Click Wallet button	Payment Method: Cash	Show payment successful message.		
	Payment Method: Online	System will ask for credit card information		
Post Condition: Booking will be successful and store all the information into database.				

Project Name: ABC Travel Agency		Test Designed by: Shusmita Anjum Aziz		
Test Case ID: ABC_Manager_View101		Test Designed date: 04/04/2024		
Test Priority (Low, Medium, High): High		Test Executed by:		
Module Name: Insert and Update Session in Manager View		Test Execution date:		
Test Title: verify manager view functionalities (insert and update)				
Description: Test application Manager View pages				
Precondition (If any): Need to Log in as admin				
Test Steps	Test Data	Expected Results	Actual Result	Status(Pass/Fail)
1. Open application 2. Log in as admin to view Homepage 3. Click Go button beside a specific manager view 4. Insert or update data 5. Click Save button	Hotel ID: Auto Generated Hotel Name: Grana Hotel Destination ID: Auto generated Destination: Cox’s Bazar	Data inserted successfully.		
	Hotel ID: Auto Generated Hotel Name: Grana Hotel Destination ID: Auto generated Destination:	Error message will be shown.		
Post Condition: Inserted or updated data will be stored in the database .				

Project Name: ABC Travel Agency		Test Designed by: Md. Minhajun Nabi Shiam		
Test Case ID: ABC_Manager_View102		Test Designed date: 04/04/2024		
Test Priority (Low, Medium, High): High		Test Executed by:		
Module Name: Delete Session in Manager View		Test Execution date:		
Test Title: Verify Manager view functionalities (delete)				
Description: Test application Manager View pages				
Precondition (If any): Need to Log in as admin				
Test Steps	Test Data	Expected Results	Actual Result	Status(Pass/Fail)
1. Open application	Select from Data Table	Data has been deleted successfully.		
2. Log in as admin to view Homepage				
3. Click Go button beside a specific manager view		Error message will be shown.		
4. Select the Information to delete				
5. Click Delete button				
Post Condition: Selected data will be deleted from the database.				

## EXERCISE - 7: WBS and Effort Estimation

### Effort Estimation:

Function points = 200

Approximate lines of code per function point = 50

$$LOC(\text{Lines of Code}) = 50 \times 200 = 10000$$

Special skills factor ( $B$ ) = 2

Productivity parameter ( $P$ ) = 1.5

Project Duration ( $t$ ) = 5 weeks = 1.25 months

$$E = \left[ LOC \times \frac{B^{0.333}}{P} \right]^3 \times \frac{1}{t^4}$$

$$E = \left[ 10000 \times \frac{(2)^{0.333}}{1.5} \right]^3 \times \frac{1}{(1.25)^4}$$

$$E \approx (8397.5332)^3 \times (0.4096)$$

$$E \approx 2.43 \times 10^{11} \text{ person} - \text{years}$$

So, the required estimated effort for this project is approximately 2.43 person-years.

### COCOMO (COSTRUCTIVE COST MODEL):

Software Project Type	Coefficient <Effort Factor>	P	T
Organic	2.4	1.05	0.38
Semi-Detached	3.0	1.12	0.35
Embedded	3.6	1.20	0.32

Effort Estimation:  $a \times \left(\frac{SLOC}{1000}\right)^b$

As the project is organic,  $a = 2.4, b = 1.05$

Here,  $SLOC = 10000$

$$\begin{aligned}\mathbf{Effort} &= 2.4 \times \left(\frac{10000}{1000}\right)^{1.05} \\ &\approx 2.4 \times (10)^{1.05} \\ &\approx 26.93 \text{ person} - \text{months}\end{aligned}$$

Development Time:  $c \times (Effort)^d$

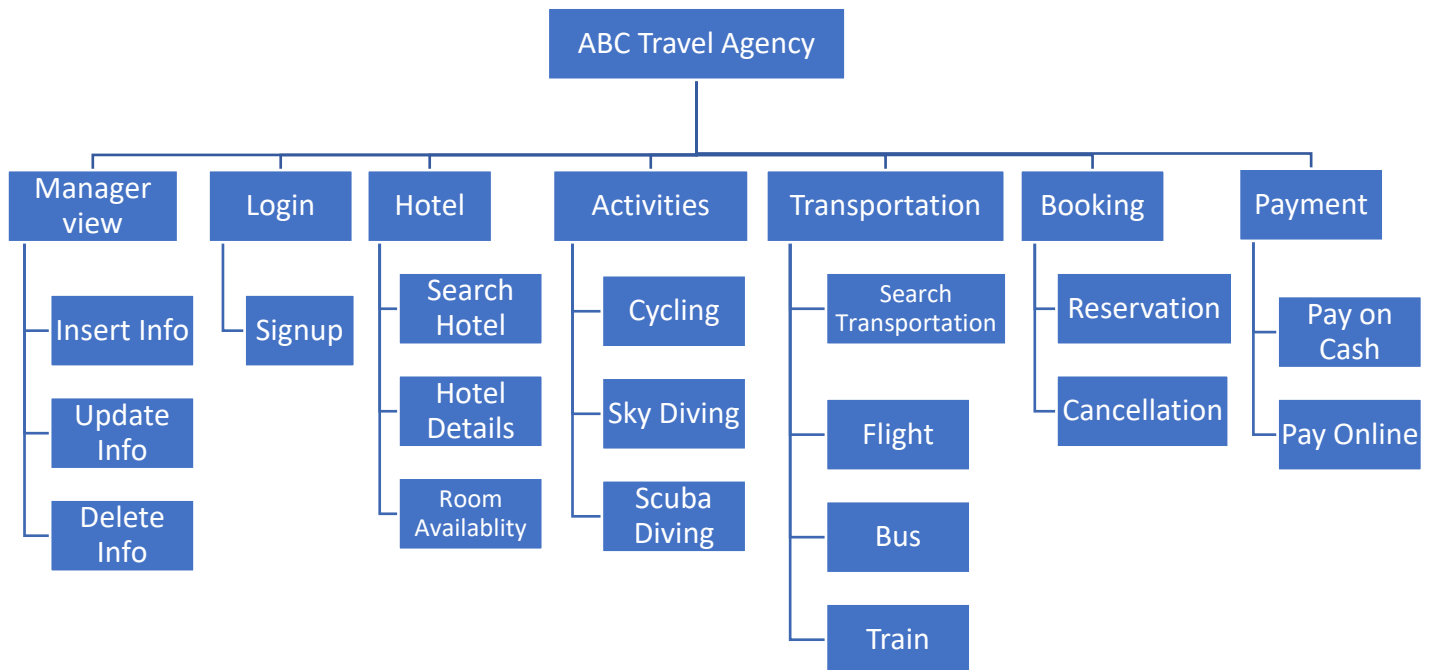

Here,  $c = 2.5, d = 0.38$  [organic]

$$\begin{aligned}\mathbf{Development\ Time} &= 2.5 \times (26.93)^{0.38} \\ &\approx 2.5 \times 3.5 \\ &\approx 8.75 \text{ months}\end{aligned}$$

Number of People Required:  $\frac{Effort}{Development\ Time}$

$$\begin{aligned}\mathbf{Number\ of\ People} &= \frac{26.93}{8.75} \\ &\approx 3.08 \text{ people}\end{aligned}$$

## WBS:

## Dependency Table:

Activity	Description	Predecessors	Duration(Weeks)
1	Login	--	1
2	Insert Info	1	3
3	Update Info	1	3
4	Delete Info	1	3
5	Signup	--	1
6	Search Hotel	--	2
7	View Activities	--	2
8	Search Transportation	--	3
9	Reservation	1	4
10	Cancellation	1, 11	1
11	Pay on Cash	1, 11	1
12	Pay Online	1, 11	4

## EXERCISE - 8: Activity Scheduling and Resource Allocation

### Network Diagram

**TimeLine Table-1**

Weeks Task: Person	1	2	3	4	5
A: Shusmita

## EXERCISE – 9 : Risk Analysis

### Risk Check List:

Risks	Category	Probability	Impact	RMMM
Integration of multiple modules	PS	70%	2	Implement modular development to manage complexity effectively
Inclusion of extensive features	PS	50%	2	Prioritize features based on user needs and feasibility assessments
Incorporating complex algorithms for itinerary optimization	PS	30%	3	Conduct thorough algorithm testing and optimization cycles during development
Fluctuating market demand	BU	60%	1	Maintain a contingency fund
Competitor actions disrupting market dynamics	BU	40%	2	Regularly monitor competitor strategies and adjust project plans accordingly
Changing regulatory requirements	BU	20%	4	Establish a compliance team to stay updated on regulatory changes and adapt the system accordingly.
Customers expecting advanced features	CU	60%	3	Conduct user research to understand customer expectations and preferences.
Customers from diverse cultural backgrounds	CU	20%	3	Hire multilingual staff or utilize translation services for effective communication.
Managing time zone differences	CU	30%	4	Implement asynchronous communication tools and establish clear response time expectations.
Lack of adherence to defined Agile practices	PR	70%	2	Provide regular Agile training sessions and conduct frequent process audits.

Inadequate documentation	PR	40%	3	Implement a robust documentation management system and enforce documentation standards.
Resistance to change	PR	50%	3	Facilitate change management workshops and provide ongoing support to teams.
Limited availability of travel-specific development tools	DE	60%	2	Invest in tool procurement and consider custom tool development.
Incompatibility issues between different software components	DE	80%	2	Conduct thorough compatibility testing.
Insufficient infrastructure for testing	DE	60%	1	Scale up testing infrastructure
Integration of emerging technologies like AI	TE	40%	3	Collaborate with AI experts
Implementing blockchain for secure transactions and data integrity.	TE	20%	4	Engage blockchain specialists
Incorporating IoT for real-time tracking of travel assets.	TE	30%	4	Conduct extensive feasibility studies and establish protocols
Limited availability of experienced developers	ST	70%	2	Provide industry-specific training to existing staff.
High turnover rate	ST	40%	2	Implement knowledge transfer sessions and mentorship programs

## EXERCISE – 10: Progress of Project Execution

### Earned Value Analysis(EVA):

Total duration = 5 week

Activity	Description	Predecessors	Duration(Weeks)	Cost (tk)
1	Login	--	1	50000
2	Insert Info	1	3	100000

**EVA Exercise:**

Total Task = 19

Effort Estimated = 100 Person Day

After 2 weeks, the project schedule indicates that 12 tasks should be completed.

Task	Planned Effort	Actual Effort
1	5.0	5.5
2	10.0	13.0
3	7.5	8.5
4	2.0	1.5
5	6.0	8.0
6	4.5	6.0
7	4.0	3.0
8	3.0	4.0
9	9.0	14.0
10	9.0	-
11	7.5	-
12	2.5	-

BCWP = 51

BCWS = 70

ACWP = 63.5

BAC = 100 person-day

$SPI = BCWP/BCWS = 51/70 = 0.7286$

$SV = BCWP - BCWS = 51 - 70 = -19$  person-day

$CPI = BCWP/ACWP = 51/63.5 = 0.8031$

$CV = BCWP - ACWP = 51 - 63.5 = -12.5$  person-day
